

Positive Numbers

We work hard on perfecting a financial model that will make positive impacts on your bottom line so you can grow your dream.

STARTUP COSTS, YOUR PASSION & CRAFT

With 10% of the capital investment of traditional brick and mortar restaurant setup costs, you know you are off a good start. Kitchens Confidential is just as invested as you.

A WHOOPING 50% LABOR SAVING

By removing the cost of a general manager, host/receptionist, service/cashier, and porter/cleaning staff, your labor saving is enormous. That means more time building your lean and efficient team.

HIGH 3RD PARTY ORDERING SERVICE FEES. GONE!

It is their customers, not yours. By focusing on building a strong community and market differentiators, you not only save on 15% of your revenue, it is a win win.

MARKETING IN A FICKLE MARKET

We are taking on what we good at and getting your brand miles ahead. Our customer-facing platform and marketing strategy build a strong community that will fuel your kitchen and your balance sheet.

Potential gross revenue uptick

25%⁺
